ABOUT BUREAU VAN DIJK

Bureau van Dijk's product range includes databases of company information and business intelligence for individual countries, regions and the world. Our global database, Orbis, combines information from around 100 sources and covers approximately 100 million companies. We are always looking to enhance our coverage and sourcing new IPs that can enrich existing coverage or help us increase our universe of companies. www.bvdinfo.com

ABOUT WRDS

Wharton Research Data Services (WRDS) is the leading data research platform and business intelligence tool for over 30,000 corporate, academic, government and nonprofit clients at over 350 institutions in 33 countries. WRDS provides the user with one location to access over 200 terabytes of data across multiple disciplines including Accounting, Banking, Economics, Finance, Insurance, Marketing, and Statistics. Flexible data delivery options include a powerful web query method that reduces research time, the WRDS Cloud for executing research and strategy development, and the WRDS client server using PCSAS, Matlab, Python and R. Our Analytics team, doctoral-level support and rigorous data review and validation give clients the confidence to tailor research within complex databases and create a wide range of reliable data models.

From partnerships with data vendors, to our own tools including the WRDS SEC Analytics Suite, to develop custom-tailored datasets from all SEC filings, parsing millions of regulatory reports, WRDS Quant Alpha, a powerful tool to discover and test unknown stock anomalies, and the Wharton School's OTIS, an online trading and investment simulator—WRDS is the global gold standard in data management and research, all backed by the credibility and leadership of the Wharton School.

ABOUT THE WHARTON SCHOOL
